

New Mechanical Equipment

On November 13th and 14th, the Maintenance and Operations Department hosted a two-day lunch and learn on mechanical equipment that included new technology on control panels, valves, and floats. Also, JCUA would like to recognize the Maintenance and Operation Staff for the hard work on getting the number 3 clarifier repaired at the JCUA POTW 2C (Gautier), which took a lot of coordination between the Operations and Maintenance Staff in order to keep good water quality while maintaining compliance. Overall work completed on the clarifier was making the mechanical repairs, cleaning, and painting the internal components. The clarifier was put back in service on November 19th.

Service Award Recipients:

- *Lynette Hardin—5 Years*

2018 Annual Christmas Luncheon

Thank you to our Executive Director, Mr. Tommy Fairfield, for hosting and providing for the annual Christmas luncheon. Also, a big thank you to those of you who helped set up and clean up and thank you to all of those who attended! We hope you enjoyed the time spent with all of the JCUA employees and playing another year of dirty Santa. We wish you all a very Merry Christmas.

Happy Birthday!
