

REQUEST FOR QUALIFICATIONS  
FOR  
GENERAL CIVIL ENGINEERING SERVICES

WATER AND WASTEWATER

This notice is a Request for Qualifications to provide Civil Engineering Consulting Services that discuss experience and capability for planning, engineering, and oversight of small and large water and wastewater related projects. Interested parties should provide a comprehensive package that includes staffing resources, specific project experience, facility locations, financial capability, and references. A review committee will assemble a list of accepted proposals and identify areas of strengths to develop a list of pre-qualified consultants that the Jackson County Utility Authority may use to assign related tasks for a period of three years. The Authority may choose to solicit project specific proposals at any time.

No contract will be awarded or signed without generation and negotiation of a specific work task.

Proposals will be accepted in accordance with this request by the Jackson County Utility Authority, 1225 Jackson Avenue, Pascagoula, MS 39567, no later than 10:00 A. M. on May 3, 2019. Proposals may be emailed to Tommy Fairfield, Jr. at: [tfairfield@jcua-ms.us](mailto:tfairfield@jcua-ms.us)
