Spring has Sprung
at the West
Jackson County
Treatment Facility!

Digester Improvement Project

The Maintenance department has been working tirelessly on the digester improvement project at the Gautier treatment plant. As you can tell from the pictures above, major improvements have occurred. The picture on the left was when the project began on April 2nd and the picture on the right is after helping with the installation of the telescopic decant valve. Thanks guys for a job well done!

Hazardous Waste Day Attendees

Thank you to these JCUA employees who attended the annual Jackson County Household Hazardous Waste Collection Day! Your extra time and service was greatly appreciated by the Authority as well as the County.

Employees who attended, pictured left to right, were: Michael Baugh, Lonnie Hanna, David Chu, Frank Carter, and Sunita Borse
