## Wildlife Abundance at WJC Lagoons

Throughout the Spring and Summer months at the WJC Lagoons, if you are able to partake in a tour of the grounds, you are subject to witness many of the beautiful wildlife creatures that frequent the area. Above you will see pictured from left to right, a swallow tailed kite, a blue winged teal duck, a baby black necked stilt, and a wasp ant. Thank you to Sharon Milligan of the Mississippi Coast Audubon Society for capturing these photos.

## Insurance Changes Effective August 1st

Insurance meetings were held over the past two weeks informing employees of changes being made effective August 1st, 2020. A second health insurance carrier has been added – Gulf Guarantee (GG). The plan stays the same in terms of deductibles, co-insurance, co-pays, prescriptions, etc. If you were unable to attend one of these meetings, do not hesitate to contact Human Resources for more information.
