Jackson County Utility Authority

A Look Back On The 15 Year Anniversary of Hurricane Katrina

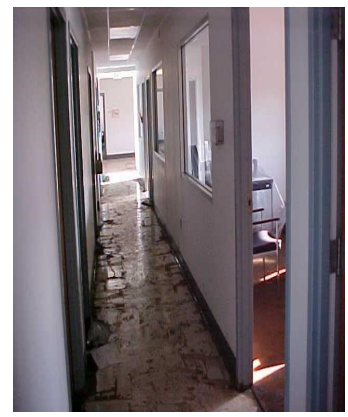

Welcome Aboard!

Donovan Taylor

Maintenance Mechanic

Two weeks ago, Jackson County was gratefully spared any major damage or destruction from Hurricane Sally. Unfortunately our neighbors on the Alabama and Florida gulf coast were not as lucky. This year marked the 15 year anniversary of Hurricane Katrina destroying the Gulf Coast. JCUA reflects on our dedicated employees, then and now, who helped prepare for Hurricane Sally and Hurricane Katrina. The photos below show the damage that was caused to JCUA property by Hurricane Katrina on August 23, 2005.

Happy Birthday!

Fountainbleau Dr. Receives Extended Sewer Services

Thank you to the Retail Staff who did a wonderful job successfully completing a multi-week effort in extending the sewer services along Fountainbleau Drive. This extension has allowed a local women's shelter to connect to public sewer service, allowing for expansion of available rehab services for those in need.
