- * Mike Baker
- * Charlie Beckstein
- * Kitty Boland
- * Brian Davis
- * Carrie Dennis
- * Ryan Dunlap
- * Scott McCelroy
- * Tara Sistrunk
- * Chris Smith
- * Lauren Smith
- * Richard Weathers

Recent Plant Tours

At the beginning of February, we had both the PMP and Escatawpa plants give tours to young high school students. Resurrection Catholic High school toured the PMP plant and Pascagoula High school toured the Escatawpa plant, where they learned about the WW treatment process and had a first hand look at microorganisms. Thanks to Chuck Redmond, Amos Dunlap, Sunita Borse, Christian Nevarez, Armond Harvey, & Carmen Huckleby for helping conduct the tours.

Ocean Springs Rehab Project

The JCUA would like to thank the Engineering, Maintenance, and Operations Staff for their assistance in working with the City of Ocean Springs on the rehab project of the Ocean Springs collection system that conveys wastewater to Pump Station 8. The project took a tremendous amount of coordination and effort to complete.
