Pool Adjustment Policy - Sewer

Every account that is billed sewer and which receives water from JCUA is eligible for a forgiveness of the sewer portion of the water needed when filling a pool, Once per Calendar Year.

The customer must come by the Customer Service office and complete a Pool-Fill Adjustment Request form prior to pool filling and state the approximate size of the pool.

Sewer adjustment calculations will be based on the 3 previous months usage. This average amount of the 3 previous months usage will be used to calculate the sewer charge for the bill upon which the pool has been filled.
